FOR IMMEDIATE RELEASE

RNF RACING LTD. hereby announces its decision to initiate formal legal proceedings against DORNA Sports S.L. and the International Road-Racing Teams Association (IRTA) for serious breaches of contractual obligations and engaging in anti-competitive practices that have severely impacted our business operations and reputation within the global motorsport community.

Despite repeated attempts to address these issues through dialogue, DORNA and IRTA have consistently failed to meet their financial commitments and have engaged in actions that constitute an abuse of power and a breach of competition law. These actions have not only resulted in significant financial losses for our company but have also aimed at undermining our competitive position and reputation in the industry.

We have gathered substantial evidence that demonstrates the extent of DORNA and IRTA's abusive behavior and their disregard for lawful agreements. Consequently, we are bringing this matter to the attention of the relevant competition authorities and are prepared to pursue all legal avenues to seek restitution and damages for the harm caused by their actions.

This step is taken not only in defense of our interests but also to highlight the importance of fair competition and integrity within the sports and business communities. We believe that no entity should stand above the law and principles of fair play, and we are committed to fighting against practices that harm the competitive landscape.

RNF RACING and CryptoDATA remains dedicated to innovation and excellence in our field, and we will continue to contribute positively to the MotoGP ecosystem. However, we will also vigorously defend our rights and ensure that justice is served in this matter.

Yours sincerely

Ovidiu TOMA

Director of RNF RACING LTD.
